

Kurt Kissling

Kurt Kissling is an environmental attorney and partner in the Detroit office of Warner Norcross + Judd LLP. Kurt counsels clients around the United States, but focuses his legal practice on permitting, compliance, enforcement, and rulemaking based on the Clean Air Act and its local equivalents. In addition to routinely organizing and speaking at environmental programs, Kurt serves on the Board of the East Michigan Chapter of the Air & Waste Management Association, on the Council for the Environmental Law Section of the State Bar of Michigan, and as Chair of the Environmental Law Section's Air Committee.

Jay Olaguer

Jay Olaguer has a PhD in Meteorology from MIT and is currently the Assistant Director in the Air Quality Division (AQD) at the Michigan Department of Environment, Great Lakes & Energy (EGLE). He has 30 peer-reviewed publications in atmospheric science and air quality, including several studies of relevance to State Implementation Plans for ozone attainment. He is also the author of a book published by Elsevier entitled, "Atmospheric Impacts of the Oil and Gas Industry." Jay has developed a 3D global multi-media model, a 3D microscale air quality model, a new technique for air quality Computer Aided Tomography, and methods to perform real-time source attribution and emissions quantification based on advanced measurements. He has also served on the editorial board of Environmental Science and Pollution Research, as guest editor of Journal of Geophysical Research-Atmospheres, and on the American Meteorological Society's Atmospheric Chemistry Committee.

Greg Myers

Greg Myers is currently the Manager of the Corporate Environmental Support Group for Marathon Petroleum Company, the largest refining company in the United States with 14 refineries, 3 biofuel plants, associated terminals and pipelines, and a large midstream gas processing business. Greg is a 1995 Graduate of Grand Valley State University with a B.S. in Env Science & Biology and continued his education with graduate work at Purdue University and finally a M.S. from Arizona State University with his coursework and published research in atmospheric science. Greg is a Qualified Environmental Professional with a specialty in Air Quality Practice.

Trace McDonald

Trace McDonald is an Environmental Engineer for the Michigan Department of Environment, Great Lakes and Energy, Air Quality Division. He has 20+ years of experience with Air Quality, first as an inspector in West Michigan and now as an engineer/meteorologist in the SIP Development Unit.

Marissa Stegman

Marissa is an Environmental Quality Analyst for the Air Quality Division (AQD) within the Michigan Department of Environment, Great Lakes, and Energy (EGLE), where she helps prepare revisions to the State Implementation Plan and develop other federally required air quality submittals for the Environmental Protection Agency. Marissa graduated from Albion College in 2017 and started her role within AQD in 2019.
