

Paul Collins specializes in energy and environmental law assisting manufacturers, companies and other organizations operating in heavily regulated areas identify compliance solutions and risk management and investment recovery strategies.

Paul addresses air, water and waste issues under the Clean Air Act, Clean Water Act, Comprehensive Environmental Response Claim Liability Act, and Resource Conservation and Recovery Act. He represents electric and gas utilities and transmission companies. Paul's knowledge of state and federal environmental programs and experience with utility rate regulations allows him to provide unique insight into the cost recovery implications of environmental law and vice versa.

Paul is a licensed professional engineer with a bachelor's degree from Michigan State University and J. D. from Cooley Law. He spent 13 years with the Michigan Department of Environmental Quality and was a primary author of many of the state's construction and operating permit regulations.
