# EGLE has a new acting Director

click picture to learn more

The screenshot shows the official website of the Michigan Department of Environment, Great Lakes, and Energy (EGLE). At the top, the department's name is displayed in a dark blue header. Below the header is a navigation menu with links for 'About Us', 'For the Public', 'Regulatory Assistance', 'Maps and Data', 'Newsroom', 'Outreach', 'FAQs', and 'Contact Us'. A large teal banner features the name 'Daniel Eichinger Acting Director' in white text. Below the banner, a breadcrumb trail reads 'Home > About Us > Our Team > Daniel Eichinger, Acting Director'. The main content area includes a news article with a sub-headline: 'Dan Eichinger was appointed by Gov. Gretchen Whitmer as Acting Director of EGLE, effective Jan. 1, 2023'. The article text describes his previous role as director of the Department of Natural Resources, his age (37), and his focus on climate resiliency, infrastructure, and renewable energy. A professional headshot of Daniel Eichinger is shown on the right, with a caption below it: 'Acting Director Daniel Eichinger'. Further text details his recognition by peers, his role as vice chair of the Executive Committee for the Association of Fish and Wildlife Agencies (AFWA), and his education from Michigan State University and Central Michigan University. At the bottom of the page, there is a 'Follow us' section with social media icons for Facebook, Twitter, YouTube, Instagram, and LinkedIn. Below this is a sign-up form for updates on environmental topics, featuring the EGLE logo, a text input field for an email address, and a 'Submit' button. To the right of the form are sections for 'About Us' and 'Job Openings', both with brief introductory text and a 'Search Open EGLE Positions' button.

**RCRAInfo**

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The system enables cradle-to-grave waste tracking of many types of information regarding the regulated universe of RCRA hazardous waste handlers. RCRAInfo characterizes facility status, regulated activities, and compliance histories in addition to capturing detailed data on the generation of hazardous waste from large quantity generators and on waste management practices from treatment, storage, and disposal facilities.

# Manifesting with regards to VSQGs and LIB

---

Site notification of VSQG or liquid industrial generator activity using Site ID Form is no longer required

If using a Uniform Hazardous Waste Manifest for shipping LIB from a site with out a Site ID, use:

- “MIVSQG” for shipping VSQG hazardous waste
- “MLIB” for shipping LIBs
- “MIVSQGLIB” for VSQG hazardous waste and LIBs

VSQGS with Site ID must use the Site ID on the Uniform Manifest, including VSQGS with episodic event
